
NC-Cyclone-120

High speed digital inkjet UV printer

The latest Onepass high-speed UV digital inkjet printer launched by Nocai which has the characteristics of fast printing speed and wide application. Its speed can reach 17 meters/minute. It does not require plate making, not subject to color restrictions, and realizes the intelligence of variable elements such as barcodes and serial numbers. Printing with higher printing quality and faster delivery time, enhances the competitive advantage of customer brands.

Features

17m printing only takes 1 minute

Fully automatic conveying platform, stable feeding, adjustable speed, as fast as 17 meters/minute, suitable for assembly line mass production.

Imported print head quality guaranteed

Using the Epson S3200-U1 print head, it is fast and precise, and is not subject to color restrictions, enabling richer images and printing effects.

High-speed printing and personalized customization

No plate making is required, full color, gradient color, and embossed varnish can all be formed in one go, making it easy to handle complex patterns to meet the individual needs of customers.

Strict quality control and stable performance

It adopts steel belt suction platform, which is strong and corrosion-resistant. Products have passed multiple rigorous tests before leaving the factory, making them highly reliable and trustworthy.

Intelligent variable data printing

Realize intelligent printing of variable elements such as barc-odes and serial numbers, reducing the time cost of sorting one by one.

120mm Print width

It can meet the printing width of most areas on the market without format concerns. The guide position can be adjusted according to the product and is easy to operate.

Easy maintenance and security

Double negative pressure ink supply plus circulation system improves the smoothness of the ink path. The pull-out ink station design enables precise control of the head position. Better protection of the nozzle in all aspects, making it safer to use.

Diversified and widely used

It is widely used in electronic products, handicrafts, hardware, packaging, daily necessities, cosmetics and other industries to meet your diversified printing needs.

Application areas

Electronic products and peripheral applications

Mobile power supplies, mobile phone cases, Bluetooth headsets, electronic alarm clocks, small speakers, tempered glass, wireless mice, wireless routers, USB, etc.

Arts and crafts applications

Bottle openers, keychain USB flash drives, refrigerator magnets, small mirrors, badges, coasters, bookmarks, small tin boxes, cards, bus card holders, etc.

Daily packaging materials application

Tinplate lids, can lids, bottle caps, cup lids, skin care product lids, electronic product plastic bottle caps, beer lids, shopping bags, etc.

Cosmetics industry applications

Eye shadow boxes, lipstick tubes, makeup mirrors, perfume bottles, nail polish bottles, pink screen boxes, eyebrow pencils, combs, etc.

Toy product application

Rubik's cube building blocks, puzzles, learning cards, cartoon card early education machines, wave drums, foam airplanes, children's flying discs, children's simulation telephones, etc.

Hardware industry application

Metal small signs, metal pendants, badges, hardware keychains, metal bookmarks, metal buttons, commemorative coins, etc.

Hardware industry application

Metal small signs, metal pendants, badges, hardware keychains, metal bookmarks, metal buttons, commemorative coins, etc.

Paper packaging applications

Metal small signs, metal pendants, badges, hardware keychains, metal bookmarks, metal buttons, etc., commemorative coins, etc.

Product parameters

Machine type		NC-Cyclone-120
Print head configuration		Epson S3200-U1*8
Print head ejection force range		2-3mm
Number of nozzles		3200(Net 2,840)
Distance between nozzles		1/300 inch
Number of nozzle rows		2
Print head physical resolution		300npi/1 line 600npi/2 lines
Ink droplet ejection performance (ink droplet volume and ejection frequency)		48（single dot），24KHz（several dots）
DPI		1200*600dpi / 1800*600dpi
Ink type		Environmentally friendly UV curing ink
Tank volumn		1000ml/color
Effective printing range		120mm
Maximum material width		380mm
Print thickness		0-100mm
Applicable materials		Plastic, glass, acrylic, metal, wood, etc.
Interface Type		Cable
Voltage		AC220V，50HZ~60HZ
Rated power		3900W
Printing method		one pass
Print mode		CMYK+W+V
Print speed range		17m/min
Printing software		FlexiPRINT MiniServer 19 Nocai Edition
Graphic and text format		Tiff,Jpg,Eps,Pdf,Png,AI
Machine size	L*W*H	1405mm*1947mm*1560mm
Net weight (approximately)		440KG
Packaging size (approximately)	L*W*H	1600mm*2150mm*2000mm
Gross weight (approximately)		540KG
Work environment		Temperature:20℃-28℃ Humidity:35%-65%
Operate enviroment		Avoid dusty environments，Avoid direct sunlight
Noise		75dB
