
NC-DLP-120

Digital inkjet label printing machine

High precision: With 4 pcs of I3200-A1 print heads, the precision can reach 1200dpi;
Fast speed: With original print head splicing technology, speed up to 20 m/min when do full resolution printing;
Characteristic: Low printing cost, duarable using print head, and with the water and wear resistance ink.

Features

Bright color, water-based ink, water resistance and environmental protection

Equipped with high-performance water-based ink, the color is gorgeous, and the true color is delicately restored. It has the characteristics of water resistance, wear resistance, and environmental protection.

Intelligent variable data printing

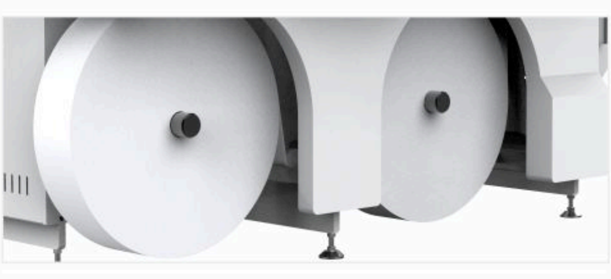
Realize the intelligent printing of variable elements such as barcodes and serial numbers, and reduce the time cost of sorting one by one.

Stable performance, automatic deviation correction system

When the edge sensor detects that the material is skewed, it can automatically correct the deviation and reduce printing

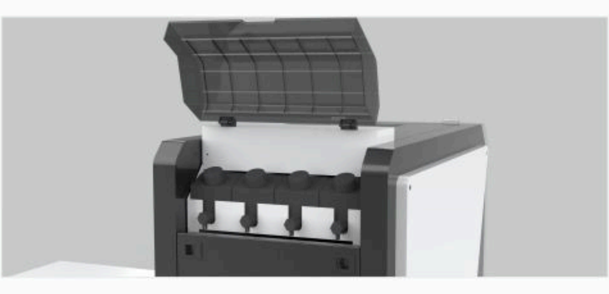
Fast speed, easy to take and unload paper

Full resolution printing speed up to 20m/min, roll to roll intelligent delivery, convenient and fast.



Easy to operate, more worry-free maintenance

Simple maintenance design, saving time and cost of label printing. The maintenance of Nocai digital inkjet label printing machine only needs to be regularly maintained according to the standard operating procedures provided by the original factory. The operator only needs to add ink to the ink cartridge to complete the ink filling work, without the need for ink replacement of traditional printing machines. Time-consuming processes such as stirring ink. The NC-DLP-120 labeling machine is equipped with an automatic cleaning unit to reduce the burden of maintenance work.



Automated Color Management

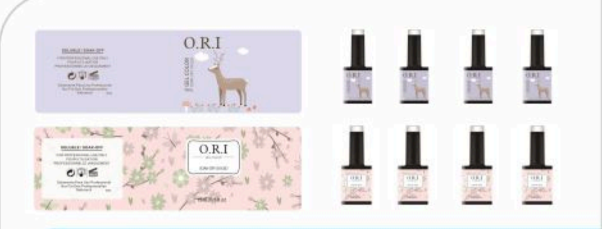
Good color and light control is an important part of quality control, but it often requires experienced experts. Nocai digital inkjet label printing machine can automatically control the color, so that label printing can achieve accurate color control in each job to meet customer needs.

Meet the needs of a variety of industries

NC-DLP-120 labeling printing machine provides customers with digital label printing solutions in various industries, with higher printing quality and faster delivery, to enhance the competitive advantage of customer brands.

Main application areas

Personalized gift tags
Stronger light resistance and weather resistance, suitable for label printing in various scenarios.



Beauty makeup tags
Light resistance, water resistance, abrasion resistance, good durability and safety in various environments.

Beverage label
Quick drying, water resistance, can meet the visual effect, durability and quality requirements of the product.

Pharmaceutical labels
Lightfast, water-resistant, heat-resistant, unique and visually appealing.

Home appliances product labels
Abrasion resistance, water resistance, good adhesion, in line with relevant safety, environmental protection and sustainable development requirements.

Food packaging label
Abrasion resistance, good adhesion, in line with food packaging standards.

Chemical label
Friction resistance, chemical resistance, water resistance, meet multiple environmental needs.

Car product label
Temperature resistance, chemical resistance, suitable for different materials, such as plastics, metals, etc.

Product parameters

Machine model		NC-DLP-120
Print head		Epson I3200-A1 print head*4
Resolution		1200*600dpi / 1800*600dpi / 2400*600dpi
Ink type		Water-based ink
Cartridge capacity	CMYK	1000ml/piece
Effective printing width		0-120mm
Paper handling		Roll to roll
Applicable material	Paper	Coated paper, art paper, high quality paper
Material thickness		0.2-0.5mm
Roll paper specifications	Weight	Max. 100kg
	Width	Max. 190mm
	Diameter	Max. 780mm (76mm/3" paper scroll)
Interface type		Ethernet cable
Voltage		AC220V，50HZ~60HZ
Rated power		3500W
Print version		Only color printing
Print mode		CMYK
Printing speed	High quality, variable printing	5-10m/min
	Standard production mode	15m/min
	High-speed production mode	20m/min
Printing software		FlexiPRINT MiniServer 19 Nocai Edition
Graphic format		Tiff/Jpg/Eps/Pdf/Png/AI/Psd
Printer dimension	L*W*H	2475mm*1053mm*1687mm
N.W.		1000KG
Packing size	L*W*H	2600mm*1580mm*1750mm
G.W.		1100KG
Working environment	Temperature	20℃-30℃
	Humidity	40%-80% (no gel)
Noise		Below 75dB
