NOCAI
Digital printer

A3
Digital inkjet printer

NC-UVA3MAX desktop small UV digital inkjet printer has the advantages of high precision, small volume, diversification, intelligence, easy operation, multi-function, strong stability, high cost performance, etc. It is not limited by materials, and it is multi-purpose and easy to realize personalized creation.

Features

1200dpi
2colors

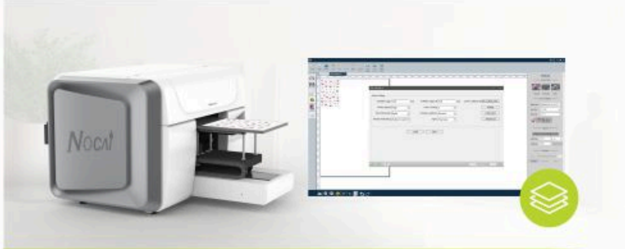
High precision and flexible color configuration

1200dpi printing solution reaches the peak resolution of the industry, creating excellent photo quality. 8 ink channels make color configuration more flexible.

1000mm
78KG
592mm
902mm

Lightweight design, easy to use

Lightweight design, does not take up space. Adapt to a variety of environments, such as homes, office environments, adverti-sing stores, scenic spots, shopping malls, etc.



Diversified effects and easy molding

A variety of printing versions, only color, color & white, color white varnish, color white color, white color varnish, etc, to achieve one-time printing.

250ml/bottle

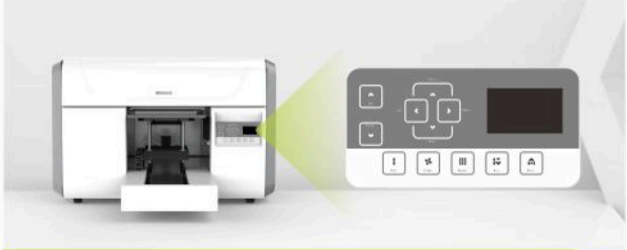
V

Intelligent ink filling and stable

Intelligent ink filling system to prevent ink leakage and wrong filling. At the same time, it has the functions of automatic ink circulation and ink shortage alarm to prevent ink precipitation, and the intelligent reminder is more convenient.



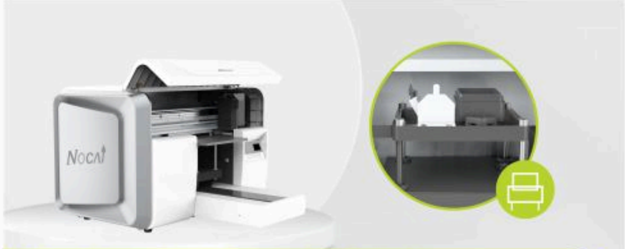
Simple maintenance and easy operation

Test printing, maintenance and other tasks can be quickly operated according to the screen print, easy to understand, automatic maintenance in standby, convenient and worry-free daily maintenance.

A3
Flat materials
Round bottle
Coil materials

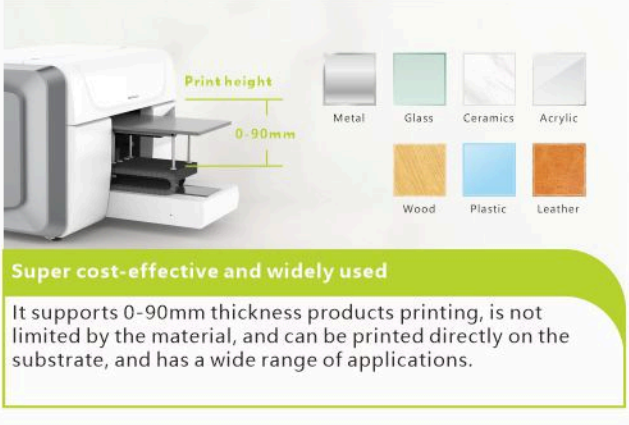
Comprehensive functions, one machine with multiple functions

Multi-functional design, one machine meets three needs, supports flat, roll and cylinder printing.



Lifting ink station design, safe and stable

The ink station rises and falls automatically, precisely controls the position of the ink car, and better protects the nozzle.



Super cost-effective and widely used

It supports 0-90mm thickness products printing, is not limited by the material, and can be printed directly on the substrate, and has a wide range of applications.

Effect display

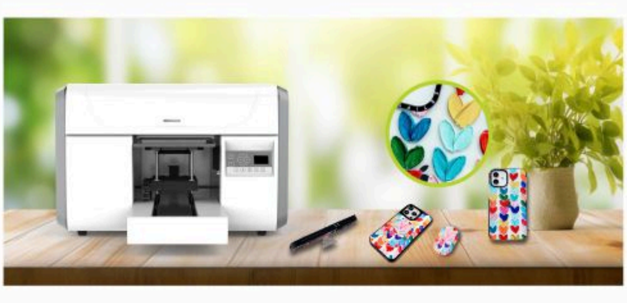
◀ Other
UV inkjet printer
NC-UVA3MAX ▶
Desktop small UV digital inkjet printer

High definition photo printing

Portrait photo printing, controlled by software color management, is not limited by color, highly restores the real image, and the effect is gorgeous.

3D printing makes more perfect

Realize white color varnish 3D relief printing, to meet individual needs and it is good to increase product added value.



B film
A film

UV DTF technology

It can be directly printed on the UV DTF film, and the printed pattern can be posted at will, not limited by the material and shape of the product.

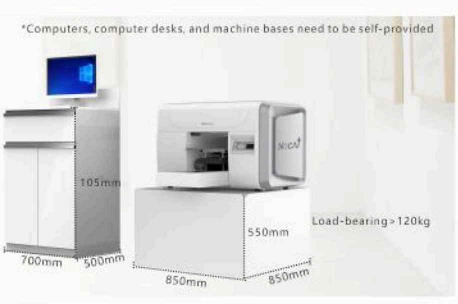
High quality color inkjet self-adhesive stickers

Roll printing mode, can directly print super cute toy stickers, daily necessities and other types of labels.

Curved surface printing

With the addition of a cylindrical fixture, it can support 360-degree curved surface printing, which is applied to cylindrical products such as thermos cups, tea canisters, and pen holders.

Computer configuration requirements:
Operating system:Windows 7/8/10/11 (64 bits)
CPU processor: recommended i5, i7 and above
Memory: 16G or above recommended
Monitor:Recommended resolution 1024*1280 or higher
Hard disk type: 128G or above
Graphics card:Motherboard integrated graphics or independent graphics card (4GB video memory or above)
Network card: Gigabit network card 1000M



*Computers, computer desks, and machine bases need to be self-provided

Product parameters

Model number		NC-UVA3MAX
Print head		Epson I3200-U1HD*1
Nozzle spray force range		2-3mm
Number of nozzles		3200个
Distance between nozzles		3200（Indivual)
Number of nozzle rows		8
Maximum number of supported ink colors		8
Nozzle physical resolution		300npi/1 List，600npi/2 List，1200npi/4 List
Effective printing width		33.8mm
Droplet ejection performance (droplet volume and ejection frequency)		2 levels of grayscale 5pl（43.2kHz)
		3 levels of grayscale 6.0-12.5pl（21.6kHz)
		4 levels of grayscale 3.8-6.2-9.3pl（21.6kHz)
Corresponding ink viscosity		5-7mPa.s
Print size		297*420mm
Print height		0-90mm
Print version		White and color and varnish print at same time
Print mode		CMYK+W+V/CMYKLcLm+W/CMYKLcLmLkLlk/CMYK
Resolution		960*1200dpi / 960*960dpi
Printer dimension	L*W*H	1000mm*902mm*592mm
N.W.		78KG
Packing size	L*W*H	1.11m*1.01m*0.76m
G.W.		110KG
Rip software		Future Rip
Flat printing speed (A3 format)	High-precision mode (8pass)	9-34 minutes/version
	Standard mode (6pass)	7-33 minutes/version
Graphic format		Tiff,Jpg,Eps,Pdf
Connection method		Network cable
Power		AC220/110V，50HZ~60HZ
Rated power		140W
Working environment	Temperature	20℃-28℃
	Humidity	35%-65%
Ink type		Environmental UV curing ink
Printer type		Digital inkjet printer

Fixture optional

Rolling fixture		
Material thickness		0.2-0.5mm
Roll Paper Specifications	weight	Within 10kg
	width	30-250mm
	diameter	Within 150mm（three-inch core，75mm)
Material length		50m/roll
Applicable material		Kraft paper stickers, white paper stickers, transparent stickers, coated paper stickers, glossy gold/silver stickers, brushed gold/silver stickers, coated paper, glossy silver paper, double-transparent labels, matte Film weak solvent PP adhesive, PET film, pvc transparent film,
Roll printing speed	High-precision mode (8pass)	9-34 minutes/version
	Standard mode (6pass)	7-33 minutes/version
Roll fixture package size		415mm*350mm*105mm
Roll fixture package weight		4.5KG

Electric cylinder fixture		
Cylinder diameter		25-80mm
Cylinder length		20-210mm
Applicable material		Paint cup, stainless steel, plastic, glass, ceramic, wood, acrylic, etc.
Round bottle printing method		White color (round bottle mode does not support varnish printing)
Round bottle printing speed	One-fourth mode	5-7minutes/piece
	One-sixth mode	7-10minutes/piece
	One-eighth mode	8-11minutes/piece
Cylindrical fixture packing size		345mm*323mm*80mm
Cylindrical fixture packing weight		2.6KG
